Dr. Shekhar Challa has an approachable and engaging personality with 25 years of distinguished expertise as a Board Certified Gastroenterologist. He went into medicine with a drive of finding new and creative ways to inform the public on digestive health. Dr. Challa enjoys the trusting relationships he has built with thousands of patients throughout his career. By empowering them with knowledge, Dr. Challa believes his patients can overcome any fears in order to receive possible lifesaving treatments and diagnostics.

Dr. Challa went beyond the confines of his medical practice to share his passion for education as the author of several books directed to those who suffer common digestive concerns. His books on Hepatitis C, Acid Reflux Disease, and Probiotics are all written in a practical framework to help his patients and the general public better understand the complexities of digestive health. Knowledge is power, and Dr. Challa believes good healthcare starts with the individual.
